

A school is much more than the brick and mortar with which it is built. It is an assortment of curiosity, knowledge, virtues and talents. It is a family that needs no linkage and knows no differences. Ever since the inception, our institution has beheld numerous accomplishments in almost every possible field, ranging from academics, extra-curricular activities to making a mark in the global arena. This year, on 15<sup>th</sup> of June, we celebrated the 25<sup>th</sup> Foundation Day of our school – a quarter of a century dedicated to the cause of education and commitment to achieve excellence. It's a celebration of the joy of learning that we develop spiritually and the bond we share with the MCKV community. The experience we have gathered and the feats we have attained over the years is tremendous, and a strong past always indicates a bright future. The capability to continue this advancement is what carries weight. This occasion allows us to reminisce our achievements and to re-dedicate ourselves to face the new challenges that lie ahead. Looking forward to many more such jubilees and celebrations, I urge each member of the family to carry on the rich heritage of this school and forever strive to serve our alma mater!

## 25<sup>th</sup> Foundation Day Celebration

***“Education is not the filling of a pail, but the lighting of a fire.”***

And M.C.Kejriwal Vidyapeeth has been stroking this fire of curiosity and wonderment, perpetually present in young minds, ever since its inception in 1997. The year 2021 is a special year for us as this year we flag-off the celebrations of our quadranscentennial anniversary. And what better day could there be to launch the celebrations than our 25<sup>th</sup> Foundation Day.

On 15<sup>th</sup> June 2021, the school celebrated its Foundation Day over virtual platform. Having welcomed our Guests of Honour, Mr. Saroj Srivastava, Principal, Agrasain Balika Siksha Sadan; Mr. Abhijit Lahiri, Principal, MCKV Institute of Engineering; Mr. Bitan Biswas, Principal, Madhusthali Vidyapeeth and our former Principal, Mr. Neelkantha Gupta, on this light bedecked morning, the celebration began on an auspicious note by lighting of the ceremonial lamp by our Chairman, Mr. Kishan Kumar Kejriwal; Headmistress, Ms. Mallika Mukherjee and the other dignitaries present in the auditorium. This was followed by a jaunty tune, which welcomed all of those attending, in its warm embrace.

Mystical and majestic, trees witness our evolution and that of the planet around us.

Keeping this in view, the school organised a symbolic tree planting ceremony which serves to highlight the hope that as we nurture and protect this tree to grow deep roots and sprout strong branches, MCKV too shall continue to grow in academic strength and reputation, like a well-rooted

tree spreading its limbs and leaves upward and outward. The festivities were further infused with a dream-like quality when our honourable Chairman, Mr. Kishan Kumar Kejriwal in his address to the community, shared a narrative which reflected the vigorous growth of the school spanning twenty-four glorious years. All eyes turned misty with the realisation that the dream our founder Chairman, Mr. Shyam Sunder Kejriwal had conceived in the year 1997, to provide holistic education and prepare students of M.C.K.V for life beyond school, has now come alive and how!

This was followed by a mellifluous instrumental rendition that enthralled the audience.

Nature facilitates the growth, development and nourishment of all its creatures. With this in view, MCKV set a unique trend by felicitating its teachers, who have completed their 10 and 15 years of assiduous service in the institution, with a sapling each. Next, our talented students tapped into the mystery of the Universe by matching their footsteps with the rhythm of the five elements of nature, the “Pancha Maha Bhootas”.

The morning became all the more memorable when MCKV launched its new school logo to commemorate 25 years of its existence. What deserves special mention is the eye-catching magic of the animated version of the logo which blazed the screen.

**“When the power of love overcomes the love of power, the world will know peace.”**

The students harped on this timeless message of peace through their heart rending and hypnotic rendition. The programme drew to a close with a vote of thanks, proposed by Headmistress, Ms. Mallika Mukherjee, to all who had made the cultural extravaganza a sweet memory to cherish and to others on successful completion of academic session 2020-2021.

To sum up, the entire celebration can be best described as a cornucopia of excitement to be treasured throughout our lifetime.

“M.C.K.V. applauds the determination & effort you all have demonstrated during your 10 years of service with us”

-  Mr. ARIJIT KUMAR
-  Ms. BINITA SINGH
-  Mr. DEBASHISH DAS
-  Ms. KANUPRIYA SRIVASTAVA
-  Mr. KAUSHIK ROY
-  Ms. MITALI SIRKHELL
-  Mr. NAGENDRA TIWARI

-  Ms. NITU TEWARI
-  Ms. PAYEL MAJUMDAR
-  Ms. PRIYANKA DAS
-  Mr. SANDIP BANERJEE
-  Mr. SONA MITRA
-  Mr. SUBRATA GHOSH
-  Mr. SUMANTA SARKAR

“Congratulations as you celebrate 15 years of service in M.C.K.V.”

-  Mr. ANUP KUMAR SINGHA
-  Ms. EKTA GUPTA
-  Ms. KEKA MUKHERJEE
-  Mr. KANAI SANKAR MANNA
-  Mr. MRITYUNJOY GOSWAMI

-  Mr. RAJ BHAWAN PANDEY
-  Ms. SARBANI CHATTERJEE
-  Ms. SAWON MUKHERJEE
-  Ms. SOMA SHUKLA MUKHERJEE

**M.C.K.V CELEBRATES 7<sup>TH</sup> INTERNATIONAL YOGA DAY**

MCKV has always taken pride in living upto its remarkable promise to provide the best possible environment for the intellectual and moral growth of its students. Indeed, "Yoga is a discipline to develop one's inherent power in a balanced mind". Keeping this in mind, the Activity Department of MCKV along with the International Dimension in School, Happy Stretch Team (a project under aegis of British Council, East India) organised a week long celebration of the art of yoga starting from June 21 to June 25, 2021.

On 21.6.21, the International Yoga Day, a session was organised for the staff members. This was followed by a special assembly on International Yoga Day, where our students demonstrated asanas and shared their benefits through a compiled video.

The teachers of the Pre-Primary

and the Primary sections also conducted an online Yoga session on 21<sup>st</sup> June, 2021. Children of Pre-Primary wing enjoyed this session along with their parents and the students of the Primary wing participated in this Yoga session with much gusto and ardour.

On the 22<sup>nd</sup> June, a 'How Fit are you Challenge' was taken up for the Class 6 boys where the physical fitness of students was adjudged based on their performance in fun-filled games like 'Spin the Bottle', 'Up in the Air', 'A Floor of Lava', 'Throw, Clap and Catch' to name a few. Boys thoroughly enjoyed the sessions. In the meanwhile, teachers graded them on their stamina, coordination, balance and other criteria. A similar fun yoga session was also organised for Class 5. For Class 7, a video session was organised so that they are able to gather knowledge about the various traditional and

contemporary practices in yoga in Thailand, Indonesia, Nepal and India. The video was followed by an interactive session. In one of these video sessions, students and teachers of our partner school, Shree Janakalyan Secondary School (Nepal), joined and motivated the students. 'Approach to wellness in both the countries' was the topic of conversation. The week finally concluded with a PPT Competition on the 'Principles of Yoga' for the students of Class 8.

The week-long activities helped to achieve a complete balance and serenity of mind, body and how to keep themselves calm and composed in these unprecedented times. Truly, Yoga is no more a discipline of co-curricular studies, rather it is a way of life and living, without which, probably remaining fit in the 21<sup>st</sup> century is a myth.

Students are performing various asana virtually.

## Craft work by Bal Bikash Kendra

Bal Bikash Kendra students are taught craft work by Interact Club and Social Service Group

**"Destiny is not created by the shoes we wear but by the steps we take."**

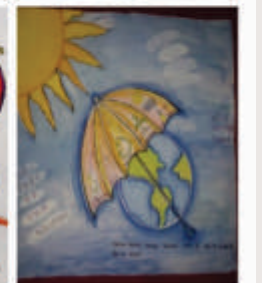

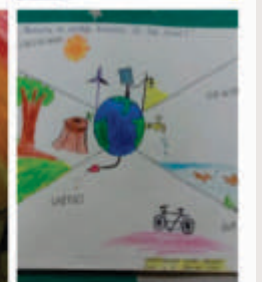

The Interact Club and the Social Service Group of M. C. Kejriwal Vidyapeeth embarked on a project to teach Origami, the art of paper craft to the differently abled students of Bal Bikash Kendra.

This craft work was to teach them some basic prowess in Origami. Moreover, this mastery will help them in good stead in the future. These children learned these skills with enthusiasm, through the videos that we presented to them. Indeed, this practice would enhance their adeptness at learning a skill as well as to increase their self-esteem. They enjoyed practicing this learning which brought a smile on their lips and made them feel important.

Indeed, it was a meaningful engagement that is sure to catalyse a change for the collective benefit of all.

Charts prepared by the students of Class-VI on World Environment Day.

Saving our Mother Earth and its environment is the key to sustain the planet for the future. On the occasion of World Environment Day on 5<sup>th</sup> June, the Social Service Group of M.C.Kejriwal Vidyapeeth had designed an awareness campaign on 'Preserving our Planet Earth,' for the students of Class 6. The students manifested their thoughts with the help of different types of charts as how we can protect and preserve our ailing planet on which we all rely greatly for our survival. The charts were broadcast in Class 6 groups. This initiative proved to be a great learning experience for the students and also taught them to be responsible world citizens and how to make it a cleaner, healthier, greener and a more prosperous planet for the future generation.

**Recursion PPT done by: Anish Goenka**

**What is Recursion?**

Recursion is a technique that allows you to break down a problem into one or more sub-problems that are similar in form to the original problem. The function that calls itself again and again from inside the function body is called recursive function. In recursive function, the calling function and the called function both are same.

```

boolean Prime(int n, int f)
{
    if(n==2)
        return (n==2)?true:false;
    else if(n%2==0)
        return false;
    else if(n%2==0 && f > n)
        return true;
    else
        return Prime(n,f+1);
}
    
```
