In the words of the Roman writer Vegetius, "Acta non verba" which means 'Deeds, not Words', there is a strong message on the importance of focussing on our act which is the only key to our success and glory.

The month of April marked the beginning of the new academic session, another important year with infinite opportunities to improve in all aspects.

Our academic year, 2025-2026 commenced with the celebration of the auspicious festival of Ram Navami, the birth anniversary of Lord Rama. His diligence and compassion for others still inspire us.

An important highlight of the month was the admission of girls in the higher secondary level, a significant mark in our school's history aiming at helping students to adjust and cooperate with opposite genders not only in the school environment but also in our heterogeneous society.

A special assembly was also held on the occasion of the birth anniversary of Dr B.R. Ambedkar, the Architect of the Indian Constitution. His struggle and ideas are a great inspiration for the youth not to give up hope and belief in their deeds.

As the month ends, we head towards the hot, torrid month of May. We hope each one stays healthy and hydrated. Till then, adieu as the future is full of hope and surprises!
