In March 2025, MCKV concluded an exceptional academic session, marked by the intensity of year-end assessment and evaluation. Amidst this academic rigour, our MCKV family united to celebrate the vibrant festival of Holi, filling our surroundings with joy, colour, and shared festivities.

As we step into a new academic year, MCKV embarks on a historic journey as a co-educational institution. For the first time, we prepare to welcome girl students into our Class 11 classrooms. This transformative milestone brings with it a wave of excitement and optimism, inspiring us to embrace new challenges while leaving behind old conventions.

May this spirit of hope and determination continue to guide us as we embark on fresh adventures and face new opportunities. As we look to a brighter future, let us remember the timeless wisdom of the Bard: 'Our destiny lies not in the stars, but within ourselves.' With this in mind, I extend my heartfelt wishes for a prosperous Bengali New Year and a rejuvenating start to the academic session 2025-2026, one filled with enthusiasm, growth, and boundless possibilities.

Nature Integrated Orientation Programme

The Nature Integrated Orientation Programme, organised by Bhoomi College, was held from 26th to 29th March 2025 at Madhusthali Vidyapeeth. It brought together 18 teachers from M.C. Kejriwal Vidyapeeth and educators from the host school for a four-day immersive experience aimed at integrating ecological awareness into education.

The programme began with ice-breakers, expectation mapping, and a symbolic seed-sowing activity. Teachers engaged in discussions on nature-based learning, inspired by readings from Bhoomi Magazine. The following days included mindful nature walks, art-based reflections, and hands-on tasks exploring sustainability and emotional connections with nature.

Participants traced the life journeys of natural and man-made objects, created eco-art, and developed demo lesson plans. The "Six Thinking Hats" activity sparked deep discussions on media, values, and conscious education. Teachers explored the Active Learning Method and exchanged ideas for embedding nature into their curriculum.

The final day consolidated insights and reaffirmed a collective commitment to nurturing eco-conscious learners. The programme was not only a professional development opportunity but also a journey of personal growth and reconnection with the natural world.
