Hope is a powerful emotion often associated with light and warmth. As we transition from the scorching heat of May to the month of June, the sky darkens, forked lightning illuminates the horizon, thunder roars, and strong winds threaten to sweep away everything in their path. Ironically, it is with the heavy downpour beneath dark skies that the earth welcomes the monsoon, resounding with hope.

Similarly, the months of May and June brought renewed enthusiasm and energy to the school as we celebrated the 165th birth anniversary of *Kobi Guru* Rabindranath Tagore with a musical tribute of "*Aloker Ei Jhorna Dharay*" by the school choir. Following the reopening of the school after the summer break, MCKV celebrated its 30th Foundation Day in the esteemed presence of Swami Ishteshananda, Headmaster, Ramakrishna Mission Vidyalyaya, Narendrapur.

MCKV formally inaugurated its newly built space lab on June 18th in the presence of Dr Debasis Chakraborty, Former Scientist and Head (Applications), RRSC/NRSC/ISRO, Kolkata. The month concluded on an inspiring note as the school celebrated Yoga Day on 21st June.

As we stand at the halfway point of 2026, I recall the words of Albert Einstein, "Never give up on what you really want to do. The person with big dreams is more powerful than one with all the facts."
